2020

Experience

Over the years, I've worked on several products, and some were for the following organizations:

Encentral Solutions Limited - Product Designer   Sept 2021 - Nov 2021
Contract

I designed the experinces of the Licencing Managment System that issues Individial and Class Licences and the E-service use to manage the customers of NCC (Nigerian Communications Commission). I translated user stories and business requirements into an effective, wireframes, Hi-Fi design and prototypes.

Henex Studios - UI Designer   Nov 2020 - Oct 2021
Freelance

I worked as a UI Designer, crafting visual and interactive interfaces that suits client needs, solving their problems and meets business requirements. I translated business requirements into Wireframes and Hi-Fi Designs. Some projects include:
- Splufix Project Managment tool
- It's Delivered
- Dream Pulze

Creations Republic - Graphics Designer   Jan 2021 - Apr 2021
Contract

I worked as a graphics designer, designing social media posts, fliers, banners and branding for our clients
